Description

Vintage German observation binoculars.
Pair of German binoculars on new aluminum gimble and old adjustable tripod. The binoculars have a magnification of 10 x 80. This is an excellent pair of binoculars still retaining most of the original paint work, with rubber eye shades and three different brightness settings. The dkl.X optics by Josef Schneider in the optical works in Bad Kreuznach and later Goettingen (1948). The tripod is probably made by Carl Zeiss. C.1942

NOTE: Shipping price P.O.A. Shipping subject to quotation and will be charged separately.
