Description

Antique Ash Skis.

A nice pair of Juniors ridge top ash skis with pointed tips, rubber foot plates and galvanised safety bindings. The bindings have an adjustable toe iron marked 'TRUSETAL' with a 'snowman holding a pair of scissors' logo and cable bindings by 'Inselberg' with coiled heel springs. The skis are natural colour with a polished finish and the running surface having a single groove along its length.

Adjustable toe irons with cable and coiled heel springs were very popular from the mid 1930's to early 1950's, although there were many design variations of these bindings.

Ski poles are sold separately and are available on request.
