Description

Walnut Millward 6" Frogback Fishing Reel.

The Millward 6" Frogback fishing reel is a beautifully crafted traditional centre pin sea reel, combining classic English engineering with timeless angling appeal. Constructed from rich walnut with a distinctive Millward brass frogback design, this vintage-style reel features a brass back plate and a full internal brass backing plate for added durability and strength.

The front plate incorporates a 3-screw brass centre plate fitted with a Slater quick-release drum catch, allowing smooth and practical operation. Twin wooden handles are mounted on brass plates, complementing the reel's authentic period styling. The brass frogback is stamped "Millward's", while the foot carries the additional stamp "Made In England".

Designed as a 6" twin-handle centre pin reel, it also features an optional check mechanism and a frogback riveted securely to the internal brass plate. Depth size measurements exclude the handle; please allow an additional 4 cm when including the handle projection.

A fine example of a traditional Millward's frogback reel, ideal for collectors, vintage tackle enthusiasts, or anglers seeking classic British-made fishing equipment.
