

Wilson Official NFL Europe Leather Football, c. 1998-2000, made in USA, bearing the facsimile signature of NFL Europe President Oliver Luck.

Sold

REF: 30378

Description

Official-size Wilson leather American football produced for NFL Europe during the league's early 2000s expansion. The ball features the embossed NFL Europe shield, Wilson script logo, and facsimile signature of Oliver Luck, President of NFL Europe, dating manufacture to approximately 2001-2005.

Handcrafted in the USA from genuine leather, the ball is marked:

Wilson®
NFL Europe shield
"Made in U.S.A."
"Inflate 13 LBS"
Factory code "A0"

The football has developed an attractive dark brown patina with honest age and handling wear. The original leather laces remain intact, and the embossed logos and lettering are still clearly visible. This example displays well and represents an increasingly collectible piece of NFL Europe memorabilia from the league's final era.
