Description

Oak Automaton Caddy Golf Bag Stand, F.H. Ayres.

A unusual caddie stand for your pencil golf bag. Made by the English firm, F.H. Ayres, the stand clips onto your golf bag, thus turning it into a caddie bag. With the push of a handle the two oak scissor legs come out to support the bag. The automatic caddy stand is stamped onto the aluminium handle "F.H. Ayres Ltd., ProvL Patent No. 18267/ 1907, London".

Auto caddy golf bag stands were becoming popular by the end of the 19th century.

Golf bag and clubs not included, but do check our website if you are after some vintage hickory golf clubs or even a set of playable Hickories.
