REF: 27070

Height: 87 cm (34.3")

Description

Hickory 'Triumph' Putter.
An unusual diamond back 'Triumph' putter by D. Anderson & Sons. The club head has an unusual profile, the rear of the blade being shallow at both the heel and toe but getting thicker as it approaches the center sweet-spot. Also the blade is slightly triangular in shape, being higher at the center. The rear stamped 'Triumph, D. Anderson & Sons, St. Andrews, Special, warranted hand forged'. The club head is pitted and has line face markings and is attached to the original hickory shaft.
