Description

Child's Bentley Pedal Car.

This charming child's Bentley pedal car is a beautifully crafted tribute to the legendary Le Mans Bentleys, capturing the spirit of classic motoring in miniature form. Finished in an elegant green, the body is expertly constructed from wood and alloy, mounted on a black chassis and set upon striking red spoked wheels with pneumatic tyres for an authentic vintage look.

Rich in period detail, the car features a detailed front grill proudly displaying the Bentley badge, flanked by separate headlamps and complemented by AA and RAC badges that enhance its nostalgic appeal. Twin leather bonnet straps and an opening side door add to both the realism and functionality of this exceptional piece.

The interior is just as impressive, with two upholstered seats arranged in tandem, a finely crafted three-spoke steering wheel in wood and alloy, and a classic bulb horn. A drop-down windscreen and working electric lights further elevate the sense of authenticity, while a spare wheel mounted neatly behind the fuel tank completes the look.

A wonderful representation of early automotive design, this pedal-powered car is a true delight for automotive memorabilia enthusiasts. Whether enjoyed as a plaything or displayed as a standout collector's piece, it is a characterful and eye-catching example of timeless craftsmanship.
