Height: 3 cm (1.2")

Diameter: 10.5 cm (4.1")

Description

Hardy Neroda Fly Fishing Cast Box.
A round original Hardy Neroda fishing cast box made from Bakelite. The screw on lid is decorated with embossed flies on leaders. HARDY BROS made in ENGLAND is stamped on the rear. The box contains two white ivorine Xylonite cast carriers and three felt rings. Each carrier will take two mounted casts, one on each side. There is no chance of entanglement, each cast is separated from the other and is in contact with the felt washer. The flies do not touch the washer as they are stuck into the cork square, so the hooks keep free from rust.
