

Presentation Rowing Oar Trophy, Fitzwilliam House, 1st Lent Boat
1950

£1,450

REF: 30667

Height: 16 cm (6.3")

Width: 371 cm (146.1")

Depth: 10 cm (3.9")

Description

Antique Rowing Oar, 1950 Fitzwilliam House, Lent Boat.

The full-length oar, 12 foot long, is an original traditional Cambridge University presentation rowing oar with gilt calligraphy and college insignia. It is a beautiful oar and in original condition. The calligraphy denotes the crew's names and weights with the oar once belonging to G. Marsden. We also have two other oars once belonging to G. Marsden and a Presentation Trophy Rowing Shield from when he was a coach.

The calligraphy on this blade reads:-

Fitzwilliam House 1st lent Boat 1950.

Bow E.W. Brown 10.10

2. K.H. Unger. 11.10

3. R. Wilkinson. 11.12

4. C.L. Dawson. 10.7

5. I.G. Mortimer. 12.12

6. D. Chamberlain. 12.12

7. G. Marsden. 12.0

Str. B.T. Tuffield. 12.2

Cox. J.D. Reynolds. 9.8

Overbumped:- Chester III, Bumped Downing II, Selwyn II

Coach T.E.W. Nind. (St. Caths.).

As the oar is full length (12 foot) shipping can be quite expensive. We have come up with an ingenious way to cut the oar so as to make shipping cheaper, the oar can then be easily reassembled. One of the images shows different images of an oar that has been cut down. It is cut by the leather sleeve so the joint is less visible or obvious. The oar can then be bolted together to make the oar one solid piece.

Please do enquire about the different shipping options.

Any crew which records four consecutive bumps is said to have 'gained their oars'. The prize being a full-size oar decorated with the names of the full crew in gold lettering on the college colours for each rower. The cox is given a decorated rudder and the coach receives a decorated wooden shield with a mock-up of the bow end of a boat.

Both Oxford and Cambridge Universities host two university bumps races yearly, each lasting several days. The races are for eights (i.e. eight rowers and a cox), each representing one of the university's various colleges. One of the races is held in early spring and the other in early summer, in Oxford they are called 'Torpid's' in the spring and 'Eights' in the summer, in Cambridge these are called 'Lent Bumps' and 'May Bumps'. The leading crews of the Lent Bumps go on to race the leading Oxford Torpid's crews at the Henley Boat Races around Easter.

The first attested bumps race took place in Oxford in 1815 and was between two eights from Brasenose College and Jesus College. Twelve years later Lent Bumps racing commenced at Cambridge University. As the Isis and Cam are long narrow rivers, not ideal for normal side by side racing, Bumps racing evolved. The competing crews line up bow-to-stern in order, one behind the other with gaps of about 1½ boat lengths between them. The start of the race commences with the firing of a cannon, the idea to progress up

their division by attempting to catch and Bump (touch) the boat in front whilst simultaneously trying not to be Bumped by the boat behind. The ultimate aim becoming top of the first division and "Head Of The River". When a bump has taken place both of the crews involved in the Bump pull over to the riverbank and take no further part in that race, allowing the rest of the division to pass. The only difference is in Torpids where the crew whose boat wa...
